The 21st century

- ❑ Industrial age
- ❑ Information age
- ❑ IT and Communication age
 - *Social and*
 - *Educational sphere*

The digitization process

The digitization is the integration of digital technologies into everyday life by digitizing of everything that is possible.

Various advanced learning techniques are:

1. *Online courses*
2. *Online exams*
3. *Digital textbooks*
4. *Animation*

SCL approaches

1. Innovative teaching
2. Learning outcome
3. European system of transfer and accumulation of credits (ECTS)
4. Flexible curricula and learning paths

Distance education and SCL

Distance education (distance learning, e-learning, online learning), form of education in which the main elements include physical separation of teachers and students during instruction and the use of various technologies to facilitate student-teacher and student-student communication.

In the case of distance learning a Lerner:

- 1. chooses the most appropriate teaching time for himself / herself;*
- 2. can learn at "his own speed" and in a convenient manner;*
- 3. can focus on certain parts of the study material;*
- 4. can test his knowledge every day;*
- 5. can cooperate more with the lecturer;*
- 6. can get the needed information faster.*
